The Exemplar

August 2023

Hi Friend,

If you can believe it, more than half the year is already behind us. For me, this time of year is an opportunity to ramp-up my learning, perhaps inspired by my kids' summer reading lists. And, like I often tell my children; learning helps us know better, so we can do better. Or was that Maya Angelou?

Regardless of where you are in the world, I hope this time of year offers you the same chance to relax, recharge, and yes, learn something new too. Our work at Exemplars in Global Health ensures learning is a daily task – one that I'm consistently grateful for.

Best,
Niranjan Bose
